

\ Infrastructure Asset Management

How can CIPFA help?

David Brindley, Director, CIPFA Property

How can CIPFA help?

- CIPFA's Highways Asset Management Planning Network (HAMP)
 - Dissemination of best practice. Asset Managers and finance need to work together to make it work
 - Series of three events each year. 94 members

How can CIPFA help?

- CIPFA's Finance Advisory Network (FAN)
 - Workshops and events in 2011 on the Transport Code.
 - Networking opportunities with combined events with HAMP
 - Strategic updates on the code either through FAN events or integrated seminars and conferences.
 - Training events tailored to specific audiences within a particular organisation.

How can CIPFA help?

- CIPFA's Financial Consultancy business unit
 - IFRS Compliance
 - Prudential Code
 - CIPFA FM Model

How can CIPFA help?

- CIPFA's Placements business unit

Provision of experienced interim public sector finance resources with expertise in:

- All aspects of financial management
- IFRS
- Training of in-house resources
- Financial planning

How can CIPFA help?

We recognise that you will need different support at different times and our products package is agile enough to offer you this flexibility. It currently includes:

- Finance and highways dual discipline training events to improve project implementation
- Summary guidance on the implementation of the code for accountants
- Assistance with Asset management planning
- Life cycle costing support
- Direction on infrastructure accounting
- Events for finance managers on practical code interpretation
- Strategic and technical updates
