

## World class financial management ... CIPFA series 2009/10

CIPFA Northern Ireland is delighted to announce a series of half-day events on topical financial and accounting issues affecting the public services.

Robust financial management, effective and accurate reporting in a changing accounting regime and the continuous battle to provide best value for the public purse are recurring themes for the modern public sector finance practitioner and manager.

Given the current challenges facing the public sector, these short, focused events will provide public sector accountants, finance practitioners, auditors and senior managers with insights into current thinking on new initiatives and expert perspectives on how these challenges can be overcome.

### **New Thinking on Financial Budgeting and Reporting**

*26 November 2009, The Mount Conference Centre, Belfast*
