

IFRS-based Code of Practice on Local Authority Accounting

Code Update (1): 5 October 2008

This Code Update includes all decisions on the preparation of the IFRS-based Code of Practice on Local Authority Accounting made up to and including the last CIPFA/LASAAC meeting on **12 September 2008**.

Next CIPFA/LASAAC Meeting: **15 December 2008**

Accounting Standards and impact on Code of Practice

IASB Standard	IPSASB Standard*	Summary of Decisions Made to Date**	Target Date for CIPFA/LASAAC to consider section of the Code	Summary of Requirements and differences from SORP	Current Local Authority Action Required
IAS 1 Presentation of financial statements	<i>IPSAS 1 Presentation of Financial Statements</i>	Presentation of financial statements to be considered in the light of the 'Back to Basics' consultation	April 2009 (Circulate for comments in January 2009)	IAS 1 amends the layout of the current standards and introduces the Statement of Changes in Equity as a new statement.	For the first accounts to be published in 2010/11, authorities will also need to restate the 2009/10 accounts. This will require an opening balance sheet as at 1 April 2009 to be prepared (in effect the closing 2008/09 balance sheet will need to be restated) and possibly published as part of the 2010/11 accounts. Authorities are advised to plan to collect the required data alongside the

IASB Standard	IPSASB Standard*	Summary of Decisions Made to Date**	Target Date for CIPFA/LASAAC to consider section of the Code	Summary of Requirements and differences from SORP	Current Local Authority Action Required
					2008/09 closure of the accounts.
IAS 2 Inventories	IPSAS 12 Inventories			IAS 2 is similar to SSAP 9. Where there are deferred payment terms, interest is recognised as an expense.	
IAS 7 Cash flow statements	IPSAS 2 Cash flow statements	Presentation of the cash flow statement to be considered in the light of the 'Back to Basics' consultation	April 2009 (Circulate for comments in January 2009)	IAS 7 requires movements in cash and cash equivalents to be reported.	
IAS 8 Accounting polices, changes in estimates and errors	IPSAS 3 Accounting polices, changes in estimates and errors		April 2009	<p>IAS 8 does not make a distinction between fundamental errors and other material errors; all material errors have to be corrected by retrospective restatement.</p> <p>More detailed disclosures are required including the impact of changes to accounting policies that will be required to implement new accounting standards that have been issued but not yet come into effect.</p>	

IASB Standard	IPSASB Standard*	Summary of Decisions Made to Date**	Target Date for CIPFA/LASAAC to consider section of the Code	Summary of Requirements and differences from SORP	Current Local Authority Action Required
IAS 10 Events after the balance sheet date	IPSAS 14 Events after the reporting date			No significant differences from existing SORP treatment	
IAS 11 Construction contracts	IPSAS 11 Construction contracts			<p>IAS 11 applies the 'percentage of completion' method. The SORP follows a similar approach once the authority has obtained the right to consideration as a result of performing an identifiable element of its contractual obligations. IAS 11 may allow for earlier recognition of income.</p> <p>The balance sheet presentation of assets is different.</p>	
<p>IAS 12 Income Taxes</p> <p>SIC 21 Income Taxes – Recovery of Non-depreciable Assets</p> <p>SIC 25 Income Taxes – Changes</p>	N/A (see IPSAS 23)			Different presentation of current tax required, and different approach to deferred taxation.	<p>Not relevant to single entity accounts of a local authority, and therefore no impact on General Fund and HRA balances.</p> <p>May be relevant to Group accounts</p>

IASB Standard	IPSASB Standard*	Summary of Decisions Made to Date**	Target Date for CIPFA/LASAAC to consider section of the Code	Summary of Requirements and differences from SORP	Current Local Authority Action Required
in the Tax Status of an Entity or its Shareholders					
IAS 16 Property, plant and equipment	IPSAS 17 Property, plant and equipment		December 2008	<p>Under IAS 16, assets are measured at recognition at cost, as is the case with FRS 15. The definition of the elements of cost is effectively the same as FRS 15.</p> <p>Where payment is deferred, interest is recognised and the cost of the asset will be lower than the payment made (subject to IAS 23).</p> <p>IAS 16 has a greater emphasis on component accounting than FRS 15, and when parts of an asset are replaced when the asset is enhanced, IAS 16 requires the parts that are replaced to be derecognised.</p> <p>IAS 16 requires entities to select either the cost model or the revaluation model as</p>	<p>Discuss fair value with valuers</p> <p>Review procedures:</p> <ol style="list-style-type: none"> 1) will need to be able to identify components when enhancements take place (and asset management software will need to be able to handle component accounting) 2) will need to be able to revalue components of an asset 3) will need to be able to derecognise parts of an asset not previously recognised as an asset (and

IASB Standard	IPSASB Standard*	Summary of Decisions Made to Date**	Target Date for CIPFA/LASAAC to consider section of the Code	Summary of Requirements and differences from SORP	Current Local Authority Action Required
				<p>its accounting policy for each class of asset.</p> <p>Where the revaluation model is used, assets are valued at fair value. This is normally based on market values, and may be different to the valuations used under the current SORP. Depreciated replacement cost can be used for specialised assets, but only where there is no market based evidence of fair value. Losses on revaluation (and impairments) are taken initially to the Revaluation Reserve and only to the Income and Expenditure Account where the balance on the reserve falls to zero.</p> <p>Accounting for depreciation and impairment under IAS 16 is similar to that under FRS 15, with the exceptions that IAS 16 requires components to be depreciated separately in most cases; and impairment</p>	<p>asset management software will need to be able to handle such derecognitions)</p>

IASB Standard	IPSASB Standard*	Summary of Decisions Made to Date**	Target Date for CIPFA/LASAAC to consider section of the Code	Summary of Requirements and differences from SORP	Current Local Authority Action Required
				losses are taken initially to the Revaluation Reserve and only to the Income and Expenditure Account where the balance on the reserve falls to zero. Renewals accounting is not permitted under IAS 16.	
<p>IAS 17 Leases</p> <p>SIC 15 Operating Leases – Incentives</p> <p>SIC 27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease</p> <p>IFRIC 4 Determining whether an Arrangement contains a Lease</p>	IPSAS 13 Leases	<p>Leases on land and buildings will need to be separated in all cases (decision made 12 September 2008)</p> <p>Treatment of finance leases in Scotland being investigated</p> <p>Draft Code approved 12 September 2008 subject to clarification of accounting for finance leases in Scotland</p>	December 2008	<p>The definitions of operating and finance leases in IAS 17 are similar to those in SSAP 21; however the 90% test in SSAP 21 does not appear in IAS 17.</p> <p>Leases of property are required to be separated into leases of land and leases of buildings, and classified separately. There is a presumption that leases of land are operating leases unless title passes at the end of the lease.</p> <p>Income recognition for finance leases may be different to that under the SORP.</p>	<p>New leases – identify land and buildings elements on inception</p> <p>Existing leases – separate land and buildings where required</p> <p>Valuers should refer to the RICS publication “Land And Buildings Apportionments for Lease Classification Under International Financial Reporting (Valuation Information Paper Number 9)”</p> <p>Consider impact of</p>

IASB Standard	IPSASB Standard*	Summary of Decisions Made to Date**	Target Date for CIPFA/LASAAC to consider section of the Code	Summary of Requirements and differences from SORP	Current Local Authority Action Required
				Transitional arrangements may have an impact on General Fund / HRA balances	transitional arrangements
IAS 18 Revenue SIC 31 Revenue – Barter Transactions Involving Advertising Services IFRIC 13 Customer Loyalty Programmes IFRIC 15 Agreements for the Construction of Real Estate	IPSAS 9 Revenue from exchange transactions			No significant differences from existing SORP treatment	
IAS 19 Employee benefits IFRIC 14 IAS 19 - The Limit on a Defined Benefit Asset, Minimum Funding	IPSAS 25 Employee benefits	Post-employment benefits (i.e. pensions) will be accounted for on a similar basis to FRS 17. The alternative treatment currently allowed under IAS 19 (which IASB is considering removing) will	Conclusions on Holiday Pay by December 2008	IAS 19 covers short-term employee benefits, post-employment benefits (e.g. pensions), other long-term employee benefits and termination benefits. It therefore covers a wider range of benefits than FRS	Review existing information on leave entitlements outstanding at year end Consider options (e.g. samples) where

IASB Standard	IPSASB Standard*	Summary of Decisions Made to Date**	Target Date for CIPFA/LASAAC to consider section of the Code	Summary of Requirements and differences from SORP	Current Local Authority Action Required
Requirements and their Interaction		<p>not be allowed under the Code (decision made 23 June 2008)</p> <p>Impact on local authorities of any accruals for short term benefits to be quantified, and issue will be raised with CLG and devolved governments if regulations required to mitigate impact required (decision made 23 June 2008)</p>		<p>17.</p> <p>IAS 19 requires all short term benefits to be accounted for as they are earned. This includes benefits such as holiday pay. IAS 19 distinguishes between accumulating and non-accumulating benefits.</p> <p>IAS 19 allows a wider range of accounting for post-employment benefits than FRS 17.</p> <p>Simplified arrangements apply to other long-term employee benefits.</p> <p>Termination benefits are accounted for on a similar basis to the SORP.</p>	<p>information not available</p> <p>Consider implications for HR systems</p>
IAS 20 Accounting for government grants SIC 10 Government	N/A (see IPSAS 23)	Offsetting government grants against the cost of fixed assets will not be permitted under the Code (decision made 23 June 2008)		IAS 20 uses a similar approach to that used in the SORP. However, an alternative treatment is also permitted under IAS 20, where government grants	

IASB Standard	IPSASB Standard*	Summary of Decisions Made to Date**	Target Date for CIPFA/LASAAC to consider section of the Code	Summary of Requirements and differences from SORP	Current Local Authority Action Required
Assistance – No Specific Relation to Operating Activities				are offset against the cost of fixed assets.	
IAS 21 The effect of changes in foreign exchange rates SIC 7 Introduction of the Euro	IPSAS 4 The effect of changes in foreign exchange rates			IAS 21 is almost identical to FRS 23.	
IAS 23 Borrowing costs	<i>IPSAS 5 Borrowing costs</i>		December 2008	<p>IAS 23 requires borrowing costs associated with the construction of a qualifying asset over a period of time to be capitalised. This is an optional treatment rather than a requirement in the SORP. IAS 23 does not need to be applied to qualifying assets measured at fair value.</p> <p>The Financial Reporting Manual does not permit borrowing costs to be added to the value of any asset.</p>	

IASB Standard	IPSASB Standard*	Summary of Decisions Made to Date**	Target Date for CIPFA/LASAAC to consider section of the Code	Summary of Requirements and differences from SORP	Current Local Authority Action Required
IAS 24 Related party disclosures	<i>IPSAS 20 Related party disclosures</i>			IAS 24 contains similar requirements to FRS 8 and the SORP, but does not include most of the exemptions found within FRS 8. As a result additional disclosures may be required.	
IAS 26 Accounting and Reporting by Retirement Benefit Plans	N/A	23 June 2008 – discussion of whether IAS 26 will apply; further discussion required before a decision is reached		IAS 26 includes optional accounting treatments that would not be permitted under the current Pension SORP. Application of IAS 26 to Local Authority Pension Schemes under discussion, as these may fall outside the Code if Pensions Accounts are removed from local authority accounts	
IAS 27 Consolidated and separate financial statements SIC 12 Consolidation - Special Purpose	<i>IPSAS 6 Consolidated and separate financial statements</i>	Following the Back to Basics responses, authorities will still produce single entity accounts (decision made 12 September 2008)		IAS 27 is broadly similar to UK GAAP, but there are minor differences to the definition of the group boundary, and the consolidation period. Calculation of the gain or loss on disposal of a	

IASB Standard	IPSASB Standard*	Summary of Decisions Made to Date**	Target Date for CIPFA/LASAAC to consider section of the Code	Summary of Requirements and differences from SORP	Current Local Authority Action Required
Entities				subsidiary is different in the treatment of goodwill.	
IAS 28 Investments in associates	IPSAS 7 Investments in associates		December 2008	The IAS 28 definition of an associate is similar to that used in the SORP. Slightly different terminology is used, which could result in different entities being brought into the group, although this will only apply at the margins.	
IAS 29 Financial reporting in hyperinflationary economies IFRIC 7 Applying the Restatement Approach under IAS 29 Financial Reporting in Hyperinflationary Economies	IPSAS 10 Financial reporting in hyperinflationary economies			IAS 29 is almost identical to FRS 24.	
IAS 31 Interests in joint ventures	IPSAS 8 Interests in joint ventures		December 2008	IAS 31 has a wider definition of joint ventures than the SORP, and includes joint

assets	generating assets IPSAS 26 Impairment of cash –generating assets	(decision made 12 September 2008). Draft Code approved 12 September 2008		difference is that impairment and losses on revaluation are charged initially to the Revaluation Reserve, and only when the balance on the reserve in respect of the particular asset is zero to the Income and Expenditure Account. The accounting treatment for goodwill is different.	accounting requirement
IAS 37 Provisions, contingent liabilities and contingent assets IFRIC 1 Changes in Existing Decommissioning, Restoration and Similar Liabilities IFRIC 5 Rights to Interests arising from Decommissioning, Restoration and Environmental	IPSAS 19 Provisions, contingent liabilities and contingent assets			There are no significant differences between IAS 37 and UK GAAP.	

IASB Standard	IPSASB Standard*	Summary of Decisions Made to Date**	Target Date for CIPFA/LASAAC to consider section of the Code	Summary of Requirements and differences from SORP	Current Local Authority Action Required
Rehabilitation Funds IFRIC 6 Liabilities arising from Participating in a Specific Market - Waste Electrical and Electronic Equipment					
IAS 38 Intangible assets SIC 32 Intangible Assets – Web Site Costs	N/A	<p>Internally generated intangible assets will be allowed (decision made 23 June 2008)</p> <p>The Financial Reporting Manual uses a proxy for fair value where there is no active market. CIPFA/LASAAC did not support this approach and will raise the issue with the FRAB.</p> <p>Draft Code approved 23 June 2008 subject to clarification on cost or fair value model</p>		IAS 38 recognises a wider range of intangible assets than UK GAAP, including more internally generated intangible assets. All impairments and losses on revaluation are charged initially to the Revaluation Reserve. The rebuttable presumption that asset lives would be less than 20 years under UK GAAP is not included in IAS 38.	Review procedures where recognition of internally generated intangible assets may be appropriate
IAS 39 Financial	N/A			IAS 39 is almost identical to	

IASB Standard	IPSASB Standard*	Summary of Decisions Made to Date**	Target Date for CIPFA/LASAAC to consider section of the Code	Summary of Requirements and differences from SORP	Current Local Authority Action Required
<p>instruments: Recognition and measurement</p> <p>IFRIC 9 Reassessment of Embedded Derivatives</p> <p>IFRIC 16 Hedges of a Net Investment in a Foreign Operation</p>				FRS 26.	
IAS 40 Investment property	IPSAS 16 Investment property	<p>Investment properties will be defined as properties that are held solely for the purpose of income generation or capital appreciation. Properties held for policy reasons, e.g. economic development will not be classed as investment properties (decision made 23 June 2008)</p> <p>Investment properties will be held at fair value; the cost model under IAS 40</p>	December 2008	<p>IAS 40 includes a definition of investment property; the SORP does not, but the definition is similar to that given in the guidance notes.</p> <p>Investment properties (including investment properties under construction) can be measured at fair value or at cost. The SORP requires them to be carried at market value. Depreciation is not charged on assets measured at fair value, as with the</p>	

IASB Standard	IPSASB Standard*	Summary of Decisions Made to Date**	Target Date for CIPFA/LASAAC to consider section of the Code	Summary of Requirements and differences from SORP	Current Local Authority Action Required
		<p>will not be permitted (decision made 23 June 2008)</p> <p>Gains and losses will be taken to the Income and Expenditure Account. These will then be reversed out through the equivalent to the Statement of Movement on General Fund Balances and will not impact on the General Fund or on Council Tax (decision made 23 June 2008)</p>		<p>SORP.</p> <p>IAS 40 applies the derecognition principles of IAS 16.</p> <p>Where the fair value model is used, IAS 40 requires gains and losses on valuation to be taken to the Income and Expenditure Account. This is not a requirement under the SORP or SSAP 19.</p>	
IAS 41 Agriculture	N/A			<p>There is no equivalent UK standard, although SSAP 9 will apply to stocks. The standard deals with agricultural activity (defined as the transformation of biological assets – plants and animals – into agricultural produce, other biological assets or for sale). Biological assets are held at fair value; changes in value are charged to the Income</p>

				and Expenditure Account.	
IFRS 1 First time adoption of IFRS	N/A	Transition arrangements will be approved with each section of the Code		Covers transition arrangements. Changes are applied retrospectively unless an exemption is available and used.	
IFRS 2 Share-based payment IFRIC 8 Scope of IFRS 2 IFRIC 11 IFRS 2 - Group and Treasury Share Transactions	N/A			IFRS 2 is almost identical to FRS 20.	
IFRS 3 Business combinations	N/A	IFRS 3 will not apply to the single entity accounts. Local Government reorganisations will therefore not require acquisition accounting. IFRS 3 may be relevant to Group Accounts (decision made 23 June 2008)		IFRS 3 prohibits the use of merger accounting, and business combinations are required to be accounted for using acquisition accounting.	
IFRS 4 Insurance	N/A			IFRS 4 applies to any entity	

IASB Standard	IPSASB Standard*	Summary of Decisions Made to Date**	Target Date for CIPFA/LASAAC to consider section of the Code	Summary of Requirements and differences from SORP	Current Local Authority Action Required
contracts				that issues insurance contracts. Accounting for insurance contracts in the UK is covered by the Companies Act 1985, the ABI SORP and FRS 27.	
IFRS 5 Non-current assets held for sale and discontinued operations	N/A		December 2008	<p>IFRS 5 introduces the concept of a 'disposal group'. Assets held for sale or included in a disposal group are not depreciated; this is a different treatment to that under FRS 15.</p> <p>The treatment of discontinued operations is different to that under the SORP, and may lead to operations being classified as discontinued earlier than would be the case under the SORP.</p>	
IFRS 7 Financial instruments: Disclosures	N/A			IFRS 7 is almost identical to FRS 29.	
IFRS 8 Operating	<i>IPSAS 18</i>	To be considered in the	April 2009	IFRS 8 requires disclosure of
