

## Sharing the Gain Networking Day

**13 May 2010, London**

In January this year, the outputs from the *Sharing the Gain* project were launched at the Houses of Parliament. On 13 May, we are inviting public sector stakeholder with an interest in shared services to participate in a networking day at CIPFA's Head Office in London.

The day will provide the opportunity to:

- Hear more about the Sharing the Gain project and outputs
- Provide feedback on those outputs you've read or otherwise used
- Share your own experiences of the issues addressed by the project
- Tell us about the support you'd like to see from CIPFA in the future
